SAFETY, HEALTH AT WORK AND ENVIRONMENT POLICY

MAXXY GROUP INC. is a company dedicated to the construction of civil works, metalworking assembly, specialized welding, architecture, and technical consulting. Therefore, it is committed, through all its employees, to complying with this comprehensive policy.

To this end, senior management undertakes the following:

- Provide the human, technical, and physical resources necessary for the implementation of the integrated management system.
- Continuously improve service quality, thereby increasing customer and stakeholder satisfaction, as well as performance in occupational health, safety, and environmental management.
- Develop programs to promote the quality of life of its employees, prevent occupational accidents and illnesses, and damage to property, while controlling the socio-environmental impacts inherent to the performance of its activities.
- Carry out its work with a commitment to continuous improvement through the identification, evaluation, and assessment of risks and the establishment of the respective controls, seeking the integrity of its employees, contractors, and all persons involved in the provision of its services.
- Commits to comply with applicable legal, national, local, and any other requirements subscribed to by the company regarding safety, occupational health, and the environment.

This policy will be implemented and communicated at all levels of the organization and is available to all interested parties. Signed, updated, and published in Georgetown, Guyana, on the 18th day of July 2025.
